ESTIMATED TAXES

The state of Illinois requires both individuals and C corporations to make estimated tax payments. Partnerships, S corporations, estates, and trusts are not required to make estimated tax payments.¹

Taxpayers who do not pay enough tax during the year may have to pay a penalty for failure to make estimated tax payments. Tax practitioners should review their client's anticipated tax situation for the coming year to help the client avoid unnecessary penalties. In general, Illinois follows the federal rules, but there are some exceptions.

Note. For information about federal estimated tax requirements, see the 2013 *University of Illinois Federal Tax Workbook*, Volume C, Chapter 4: Estimated Taxes.

REQUIREMENTS FOR INDIVIDUALS²

General Rule

An individual taxpayer must generally make estimated income tax payments to the state of Illinois if they reasonably expect to owe over **\$500** after subtracting withholding and tax credits. The following individuals are exempt from this requirement.

1. Taxpayers who are 65 years or older **and** permanently living in a nursing home (This exception applies if either taxpayer on a joint return qualifies.)
2. Taxpayers who qualify as farmers because at least two-thirds of their total federal gross income is from farming

Note. Illinois follows the federal rules to determine whether a taxpayer is a qualified farmer. For information on how to determine whether a taxpayer meets the gross income rule, see the "Farmers and Fishermen" section in the 2013 *University of Illinois Federal Tax Workbook*, Volume C, Chapter 4: Estimated Taxes.

3. Taxpayers who were not required to file an Illinois income tax return for the prior year
4. Taxpayers whose prior year tax liability was zero

² Instructions to 2012 Form IL-2210, *Computation of Penalties for Individuals*.

2013 Workbook

If exceptions 1, 2, or 3 apply, the taxpayer must check one of the applicable boxes on Form IL-1040, *Individual Income Tax Return*.

Safe Harbor

The general rule does not apply if the taxpayer's withholding and refundable credits will be at least the lesser of:

1. 90% of the taxes shown on the current year's return, **or**
2. 100% of the taxes shown on the previous year's return.

Example 1. Jane realized a large capital gain from a stock sale in March 2013. She mentions the gain to her tax preparer, Frank, while she is having her 2012 return prepared. She also tells him that she expects the rest of her 2013 income and expenses to be comparable to 2012. Frank uses this information to prepare the following projection.

Total tax liability	\$3,000
Tax withholding	<u>(1,750)</u>
Tax due	\$1,250

Because Jane's projected balance due is over \$500, she may need to make estimated tax payments for 2013. However, Frank also compares her actual 2012 and projected 2013 taxes to the amount of her 2013 withholding to see whether she meets one of the safe harbor exceptions.

	2012 Actual	2013 Projected
Total tax liability	\$1,500	\$3,000
Applicable percentage	$\times 100\%$	$\times 90\%$
Safe harbor threshold	\$1,500	\$2,700
Lowest threshold		\$1,500
2013 withholding		\$1,750

Because Jane's projected 2013 withholding is greater than 100% of her 2012 taxes, she is not required to make estimated tax payments for 2013.

Married Taxpayers

Taxpayers who file married filing jointly (MFJ) each year complete the calculations for estimated tax payments and any related penalties in the same manner as other taxpayers. However, taxpayers who file MFJ for one year but separately in the previous year or following year must perform additional calculations to determine the proper amount to use as their prior year's tax.

Couples with Alternating MFJ and MFS Returns. For purposes of determining the required amount of any estimated tax payments, a return with any filing status other than MFJ is considered a separate return. If a couple files MFJ for the current year but filed married filing separately (MFS) for the prior year, the total tax amount is added together from each of the prior year MFS returns to arrive at the prior year total tax amount.

Conversely, couples who file MFS for the current year but filed MFJ for the prior year must use their respective portions of the prior year tax from the MFJ return for estimated tax calculation purposes.

Paying Estimated Taxes³

Due Dates. Generally, for most individuals, the first three estimated payments are due the 15th of April, June, and September of the current tax year. The fourth payment is due January 15 of the following year. For individuals using fiscal year reporting, payments are due on the 15th day of the fourth, sixth, and ninth months of the fiscal year and of the first month after the end of the fiscal year.

Payment Methods. There are five ways for individuals to pay estimated tax.

1. Credit an overpayment on the prior year's return to the current year's estimated tax.
2. Mail the payment (check or money order) with Form IL-1040-ES, *Estimated Income Tax Payment for Individuals*.
3. Pay by electronic debit using the WebPay feature found at <http://tax.illinois.gov>. A personal identification number (PIN) is required, which can be obtained via the website using the taxpayer's social security number **and one** of the following.⁴
 - a. Adjusted gross income from most recently filed return
 - b. 9-digit zip code
 - c. Driver's license number
 - d. Illinois identification number
4. Pay by electronic funds transfer by completing Form EFT-1, *Authorization Agreement for Certain Electronic Payments*.
5. Pay by credit or debit card for an additional fee via the website at <http://tax.illinois.gov/Individuals/Pay/CreditCard.htm>. To pay by **credit card without using the Internet**, the taxpayer may call one of the following.
 - a. Official Payments Corporation at 1-800-272-9829 (Jurisdiction Code 2300)
 - b. Value Payments Systems at 1-888-972-9457
 - c. Link2Gov/FIS at 1-877-578-2937

REQUIREMENTS FOR CORPORATIONS

General Rule

A corporate taxpayer must make estimated income tax payments if it reasonably expects to owe over **\$400** after subtracting withholding and tax credits.⁵ S corporations and corporations that did not file Form IL-1120, *Corporation Income and Replacement Tax Return*, for the prior year are exempt from this requirement.⁶

Safe Harbor

Although the safe harbor for corporations is similar to the one for individuals, it does **not apply** under the following conditions.

1. The corporation's prior year tax was zero.
2. The corporation's prior year return was for a short tax year.

Note. This is important because accountants at corporations that historically owe no Illinois income and replacement tax may think that they can rely on the safe harbor of 100% of the previous year's taxes. Practitioners should ensure clients use mid-year reviews when they anticipate realizing a profit.

⁶ Instructions to 2012 Form IL-2220, *Computation of Penalties for Businesses*.

2013 Workbook

Even if the net tax due is greater than \$400, corporations are not required to make estimates if their pass-through payments, credits, and withholding are greater than the lesser of:

1. 90% of the taxes to be shown on the current year's return, **or**
2. 100% of the taxes shown on the previous year's return.

Paying Estimated Taxes⁷

Due Dates. For corporations using calendar year reporting, the estimated payments are due the 15th of April, June, September, **and December** of the current tax year. For corporations using fiscal year reporting, payments are due on the 15th day of the fourth, sixth, ninth, and twelfth months of the fiscal year.

Observation. It is important to note that the fourth payment is due during the last month of the current year for corporations even though individuals have until the first month of the following year to make their final estimated tax payment.

Payment Methods. There are four ways for corporations to pay estimated tax.

1. Credit an overpayment on the prior year's return to the current year's estimated tax.
2. Mail a check or money order with Form IL-1120-ES, *Estimated Tax Payments for Corporations*.
3. Pay by electronic debit using the WebPay feature found at <http://tax.illinois.gov>.
4. Pay by electronic funds transfer by completing Form EFT-1.

DETERMINING THE REQUIRED ESTIMATED TAX PAYMENTS

Taxpayers may use any one of three methods for determining the amount of estimated tax payments they should make during the year. If the taxpayer pays at least the amount that is calculated under the method that produces the lowest result, they will not be subject to estimated tax penalties.

The Prior Year 25% Method

The simplest way to determine the amounts to pay each quarter is by using the calculation under the safe harbor explained earlier in this chapter. Under a provision of the safe harbor, the taxpayer avoids an estimated tax penalty if they pay at least 100% of the liability shown on their prior year return. The minimum amount of the payment each quarter must be at least 25% of the amount that is not paid by withholding or applied refunds. However, this method cannot be used by **corporations** that had no tax liability in the prior year.

The Current Year 25% Method

Taxpayers who are reasonably certain that their current year tax liability will be less than their prior year liability may want to use the current year 25% method. Under this method, the taxpayer must pay at least 90% of the current year tax using estimated tax payments and/or tax withholding in order to avoid penalties. The minimum amount of the payment each quarter must be at least 25% of the amount that is not paid by withholding or applied refunds.

2013 Workbook

The Annualized Method

The annualized method is typically used by taxpayers whose income fluctuates during the year. This method matches the estimated tax payments more closely with the time that the income is earned and expenses are paid. This may be beneficial for taxpayers who receive a significant portion of their income in the last months of the tax year.

Note. Illinois follows the federal rules for **individuals** using the annualized method. For information on the annualized method for individuals, see the “Determining the Required Estimated Tax Payments” section in the 2013 *University of Illinois Federal Tax Workbook*, Volume C, Chapter 4: Estimated Taxes.

The annualized method for **corporations** requires that income be calculated for six different periods (the first 3, 5, 6, 8, 9, and 11 months of the tax year). This is most easily explained by showing how the annualization worksheet of Form IL-2220 is completed.

Example 2. Taupe Holdings of Illinois, Inc., receives the bulk of its income in October, and its net income fluctuates significantly from year to year. It files its Illinois return on the calendar-year basis. None of its Illinois taxes are paid via credits from flow-through entities or tax withholding.

To calculate the required estimated tax payment each quarter, it uses the annualized method and the worksheet from step 6 of Form IL-2220. The completed worksheet used to determine its fourth installment follows. From line 38 of the worksheet, it subtracts the payments made for the first three installments.

on Line 28 if you want to pay your payments at this time. Otherwise, we will send you a bill.

Step 6: Complete the annualization worksheet for Step 2, Line 10

Note Complete this worksheet only if your income was not received evenly throughout the year and you choose to annualize your income. Beginning with Column A, complete Lines 29 through 45 of each column.

	A	B	C	D
		First 3 months	First 6 months	First 9 months
29 Write your Illinois net income for each period.	29	3,000 .00	6,000 .00	9,000 .00
30 Annualization factors	30	4	2	1.33333
31 Multiply Line 29 by Line 30.	31	12,000 .00	12,000 .00	12,000 .00
		First 3 months	First 5 months	First 8 months
32 Write your Illinois net income for each period.	32	3,000 .00	2,000 .00	8,000 .00
33 Annualization factors	33	4	2.4	1.09091
34 Multiply Line 32 by Line 33.	34	12,000 .00	4,800 .00	12,000 .00
35 In Column A, write the amount from Line 34, Column A. In Columns B, C, and D, write the lesser of Line 31 or 34 for each period.	35	12,000 .00	4,800 .00	12,000 .00
36 Net income and replacement tax for the period. See instructions.	36	1,140 .00	456 .00	1,140 .00
37 Applicable percentage	37	22.5% (.225)	45% (.45)	67.5% (.675)
38 Multiply Line 36 by Line 37. This is your annualized installment.	38	257 .00	205 .00	770 .00

2013 Workbook

Observations for Example 2.

1. The net income from the first five months of the year (shown on line 32 of column B) is less than the net income from the first three months (shown on line 29 of column B). Therefore, the corporation uses the net income from the first five months to determine the amount of the second required estimate.
2. The net income from the first six months (shown on line 29 of column C) is less than the net income from the first eight months (shown on line 32 of column C). Therefore, the corporation uses the net income from the first six months to determine the amount of the third required estimate.
3. Even though it is known by the end of the eleventh month that the corporation's tax liability will be significantly higher than the tax computed based on the first nine months, its fourth payment is still based on the lower amount.

UNDERPAYMENT PENALTY

When taxpayers file their tax returns, they may include the applicable estimated tax penalty with the return. However, they are not required to do so. For those who want to include the penalty with the return, **individual taxpayers file Form IL-2210, *Computation of Penalties for Individuals***, and **corporations file Form IL-2220, *Computation of Penalties for Businesses***.

If the penalty is not included with the return, the Illinois Department of Revenue (IDOR) calculates it and assesses the balance due.

The penalty is calculated separately for each payment period. Taxpayers may owe a penalty for an earlier payment period even if they later paid enough to make up the underpayment. This is true even if they are due a refund when they file their income tax return.

Note. For individuals, Form IL-2210 is completed using the same methodology as the federal Form 2210. For more information about Form 2210, see the 2013 *University of Illinois Federal Tax Workbook*, Volume C, Chapter 4: Estimated Taxes.

Changes to Illinois Tax Law

If the Illinois Income Tax Act is amended during the tax year and the change affects how taxpayers calculate their net income or credits, the underpayment penalty may be calculated using a modified annualized method. IDOR allows taxpayers to calculate their estimated tax penalties for each period based on the law in effect at the end of that period.

Example 3. A law passes on May 30, 2013, that disallows certain deductions that were allowed under prior law. The law goes into effect for taxpayers whose tax year ends on or after July 31, 2013.

Scott is an individual who files on a calendar-year basis. Based on the law effective in 2012, Scott did not expect to owe any Illinois income taxes for 2013. However, because of the law change, he owes \$700 when he completes his 2013 return. To reduce his penalty, he completes Form IL-2210, using the annualization worksheet in step 6 of the form.

On the Form IL-2210 worksheet, he uses the **old law** to calculate the Illinois base income for the periods ending March 31 and May 31, which ended prior to the effective date of the new law. He uses the new law to calculate his income for the last two periods.

RESIDENCY ISSUES

In general, taxpayers who move into or out of Illinois during the year are required to pay Illinois income taxes on only the income they earned while they were residents of Illinois. However, certain deductions and credits may not be allowed for taxpayers who were only part-year residents. To allocate their income and deductions, part-year residents must complete Schedule NR, *Nonresident and Part-Year Resident Computation of Illinois Tax*.

DETERMINING RESIDENCY⁸

An individual's residency status is determined by the facts and circumstances of each situation. According to the Illinois Administrative Code, the intent of the Illinois tax code is for all persons who benefit from Illinois government to help pay for its services.

To this purpose, the law defines a resident as an individual who:

1. Is in the state for **other than** a temporary or transitory purpose during the tax year, **or**
2. Lives in the state **except for** a temporary or transitory purpose during the tax year.

This means that a person is considered an Illinois resident if they live in the state without plans to leave. A person is also a resident if they maintain a home in the state but leave with the intent to come back.

Special rules apply to a married couple who files a joint federal tax return but one spouse is a full-year resident of Illinois while the other spouse is a nonresident or part-year resident. In this case, each spouse must file a separate return for the state of Illinois.

AMENDED REGULATIONS TARGETING "SNOW BIRDS"⁹

In July 2012, the Illinois Appellate Court (First District, First Division) issued an important decision in *Cain v. Hamer*¹⁰ concerning the residency status of a couple who resided in both Illinois and Florida. In 2006, the Illinois Department of Revenue (IDOR) sent the plaintiffs a notice of tax deficiency, which asserted that the plaintiffs owed over \$1.8 million in unpaid income taxes and penalties for the years 1996 through 2004. The court ruled that the taxpayers had met the Illinois regulatory requirements to be considered nonresidents for income tax purposes and therefore did not owe any of the taxes or related penalties.

In response, IDOR has amended its regulations. Effective April 19, 2013, taxpayers will be **presumed to be Illinois residents** if either of the following two conditions exist.

1. They receive an owner-occupied homestead exemption for Illinois property.
2. They were Illinois residents in the prior year and they spend more days in Illinois in the current year than they did in any other state.

However, even if taxpayers do meet one of these conditions, they may rebut the presumption that they are Illinois residents by providing "clear and convincing evidence" that they are residents of another state. The regulations list a variety of evidence and facts that may be used to establish residency.

- Location of spouse and dependents
- Voter registration
- Automobile registration

2013 Workbook

- Driver's license
- Filing an income tax return as a resident of another state
- Home ownership or rental agreements
- The permanent or temporary nature of work assignments in a state
- Location of professional licenses
- Location of medical professionals, other healthcare providers, accountants, and attorneys
- Club and/or organizational memberships and participation
- Telephone and/or other utility usage over a period of time

If taxpayers believe that they are not Illinois residents despite the fact that one of the two presumptive conditions exist, the regulations suggest that the taxpayers should file an Illinois return to avoid being penalized for failure to file if the state later determines that they were Illinois residents. There are two methods outlined in the regulations: one for taxpayers who have no Illinois income and one for taxpayers who have income that is taxable for Illinois purposes.

The following method should be used for **nonresidents who have no Illinois income**.

1. Mark the return as a nonresident return.
2. Do **not** include Schedule NR with the return.
3. Show the computation of net income as though the taxpayer were a resident.
4. Note on the line of the return provided for entering the tax liability: "No liability — nonresident."
5. Attach a signed statement indicating the following.
 - a. Which presumption of residence applies to the taxpayer
 - b. Specific detail explaining the reasons why the individual believes that they were a nonresident for the tax year
6. Attach any evidence (such as certificates or affidavits) that shows the taxpayer was a nonresident for the tax year.

The following method should be used for **nonresidents who have Illinois income**.

1. File a return as a nonresident.
2. Include Schedule NR with the return.
3. Attach a signed statement indicating the following.
 - a. Which presumption of residence applies to the taxpayer
 - b. Specific detail explaining the reasons why the individual believes that they were a nonresident for the tax year
4. Attach any evidence (such as certificates or affidavits) that shows the taxpayer was a nonresident for the tax year.

Under both of the preceding methods, IDOR may request additional information supporting the taxpayer's contention that they are not an Illinois resident. If the taxpayer fails to submit additional information or if the additional information submitted does not convince IDOR that the taxpayer was a nonresident, a notice of deficiency will be issued to the taxpayer.

2013 Workbook

PREPARATION OF SCHEDULE NR

Schedule NR is used to allocate a part-year resident's income between that which is taxable by Illinois and that earned while a taxpayer was a resident of another state.

Example 4. Wayne was a resident of Illinois from his birth until October 15, 2012. On that date, he packed all of his belongings and moved to Florida to take a new job. Prior to moving, he worked in Florida for two months for a different employer. During those months, he maintained his Illinois home and rented a place in Florida. His Illinois home was sold on November 1, 2012. He excludes the gain from the sale of his main home under the IRC §121 rules.

Wayne is single with no children. The following is a summary of his 2012 income and applicable expenses.

	Jan. 1–Oct. 15	Oct. 15–Dec. 31
Wages earned while working in Illinois	\$10,000	
Wages earned in Florida before moving	2,000	
Wages earned in Florida after moving		\$5,000
Interest income earned on savings at IL First Bank	175	25
Net farm rental income received on IL farmland	5,000	1,000
Qualified moving expenses	(3,000)	(600)

Wayne's completed 2012 Schedule NR follows.

	36 Add Column B, Lines 22 through 35. This is the Illinois portion of your federal adjustments to income.	36	3,000.00
	37 Write your adjusted gross income as reported on your federal Form 1040, Line 37; 1040A, Line 21; 1040EZ, Line 4.	37	19,600.00
	38 Subtract Line 36 from Line 21. This is the Illinois portion of your federal adjusted gross income.	38	15,175.00

Step 4: Figure your Illinois additions and subtractions

In Column A, write the total amounts from your Form IL-1040. You must read the instructions for Column B to properly complete this step.

		Column A Form IL-1040 Total	Column B Illinois Portion
Illinois Adjustments	39 Federally tax-exempt interest income (Form IL-1040, Line 2)	39	.00
	40 Other additions (Form IL-1040, Line 3)	40	.00
	41 Add Column B, Lines 38, 39, and 40. This is the Illinois portion of your total income.	41	15,175.00
	42 Federally taxed Social Security and retirement income (Form IL-1040, Line 5)	42	.00
	43 Illinois Income Tax overpayment included on your U.S. 1040, Line 10. (Form IL-1040, Line 6)	43	.00
	44 Other subtractions (Form IL-1040, Line 7)	44	.00
	45 Add Column B, Lines 42 through 44. This is the total of your Illinois subtractions.	45	.00

Step 5: Figure your Illinois income and tax

Tax Calculations	46 Subtract Line 45 from Line 41. If Line 45 is larger than Line 41, write zero. This is your Illinois base income . Write this amount on your Form IL-1040, Line 12. →	46	15,175.00
	If Line 46 is zero, skip Lines 47 through 51, and write "0" on Line 52.		
	47 Write the base income from Form IL-1040, Line 9.	47	19,600.00
	48 Divide Line 46 by Line 47 (carry to three decimal places). Write the appropriate decimal. If Line 46 is greater than Line 47, write 1.000.	48	0 • 774
	49 Write your exemption allowance from your Form IL-1040, Line 10.	49	2,050.00
	50 Multiply Line 49 by the decimal on Line 48. This is your Illinois exemption allowance.	50	1,587.00
	51 Subtract Line 50 from Line 46. This is your Illinois net income.	51	13,588.00
	52 Multiply the amount on Line 51 by 5% (.05). This amount may not be less than zero. This is your tax . Write this amount on your Form IL-1040, Line 13. →	52	679.00

This form is authorized as outlined under the Illinois Income Tax Act. Disclosure of this information is required. Failure to provide information could result in a penalty.

Observations for Example 4.

1. The wages Wayne earned in Florida before he moved were subject to Illinois income tax because he was still an Illinois resident when he earned those wages. Florida does not have an income tax. If Wayne had worked in a different state that had a state income tax, he would have to file Schedule CR, *Credit for Tax Paid to Other States*, to claim a credit for the tax paid to another state on the \$2,000 of wages earned while he was an Illinois resident.
2. Although all of Wayne's interest was earned on savings at a bank located in Illinois, interest is allocated based on residency at the time the interest is earned.
3. Net rental income on property located in Illinois is taxed by Illinois regardless of residency. In future years, Wayne should file an Illinois nonresident return to report the net rental income received on his farmland and to pay the tax due.
4. Wayne must provide receipts proving that the moving expenses were paid while he was an Illinois resident.

PASS-THROUGH ADJUSTMENTS TO INCOME

Partnerships, S corporations, trusts, and estates with operations in Illinois are required to issue Illinois versions of the Schedules K-1 to the taxpayers who receive federal Schedules K-1. These schedules give the recipients information needed to properly report income and deductions specific to the state. The following schedules may be issued.

1. Schedule K-1-T, *Beneficiary's Share of Income and Deductions*, completed by trusts or estates filing Form IL-1041, *Fiduciary Income and Replacement Tax Return*
2. Schedule K-1-P, *Partner's or Shareholder's Share of Income, Deductions, Credits, and Recapture*, completed by partnerships filing Form IL-1065, *Partnership Replacement Tax Return*, or S corporations filing Form IL-1120-ST, *Small Business Corporation Replacement Tax Return*

Note. The state of Illinois does **not** require that the Schedules K-1 be included with the **entities'** Illinois returns. Instead it requires that the taxpayers who receive a Schedule K-1-T or K-1-P attach the form to their returns. Some tax software includes input forms that the preparer can complete to substitute for mailing the schedules to the state.

It may be difficult to determine how the numbers reported on the Schedules K-1-T or K-1-P should be reported on the taxpayers' Illinois returns. Even with the assistance of software, **tax preparers may be required to make manual adjustments on Form IL-1040 to properly report the entities' activities.** This section explains a few of the adjustments commonly reported on the Illinois schedules.

SCHEDULE K-1-T EXAMPLE

Example 5. Cari is an Illinois resident. In 2012, her great-aunt Peg passed away, leaving Cari as the sole beneficiary of her estate. Peg was also an Illinois resident. The assets of the estate consisted entirely of CDs, U.S. savings bonds, IRAs, and Illinois college savings bonds (which are exempt from both federal and Illinois taxation¹¹).

For illustration purposes, assume that Cari has no other 2012 income. The federal and state K-1 forms that she receives are shown next, followed by select portions of her 2012 Form IL-1040.

IL-1040 Schedule M front (R-12/12)

2013 Workbook

Observations for Example 5.

1. Because Cari is an Illinois resident, Column B (Illinois share) of the Schedule K-1-T is blank.
2. The information reported on page 1 of the Schedule K-1-T summarizes the amounts reported on the federal Schedule K-1. Therefore, these amounts are already included in Cari's adjusted gross income (AGI) on Form 1040 and do not need to be entered separately on the Form IL-1040.
3. Page 2 of Schedule K-1-T reports the amounts that are required to be shown as adjustments on Cari's Form IL-1040.
4. The amount of tax-exempt interest income received by the estate was \$6,000. This amount is shown as an addition on line 30 of the Schedule K-1-T. Cari reports this amount on line 2 in step 2 of Schedule M. The step 2 totals flow to line 3 of Form IL-1040.
5. The amount of interest income received from redeeming the U.S. savings bonds was \$50,000. Note that the **federal 2012 Schedule K-1** for Form 1041 did not include any indication that the interest income on line 1 included U.S. government interest.
6. All of the subtractions reported separately on step 5 of the Schedule K-1-T are totaled and reported on line 13 of Schedule M. Although there are specific lines on the Schedule M for the U.S. government interest and the other exempt interest, these amounts are not reported separately on Cari's Schedule M.
7. It is the responsibility of the preparer of the entity return to properly complete the Schedule K-1-T that is given to the taxpayer. However, practitioners may want to ask their clients about the source of income reported on the Schedule K-1-T. In this example, if the estate's return preparer had not prepared the Schedule K-1-T or had not reported the subtractions on the K-1-T, Cari would have paid over \$15,000 of Illinois income taxes on income that is not taxable by the state.

Note. The \$250,000 of IRA distributions qualified as a subtraction on Schedule M because it was from a retirement plan. Nonqualified annuities should **not** be included in the amount reported on line 37 of Schedule K-1-T.

SCHEDULE K-1-P EXAMPLE

Example 6. Larry and Darrel are brothers who share ownership of an Illinois LLC, which is named Partnership LLC. The company specializes in maintenance for commercial properties. As part of their business philosophy, the brothers make a point of hiring disabled veterans. The wages paid to the employee-veterans in 2012 qualify for both federal and state tax credits.

In 2012, the LLC made adjustments on its Form IL-1065 for the following items.

1. Illinois replacement tax of \$150 deducted on the federal return (Schedule K-1-P, line 33)
2. Bonus depreciation of \$5,000 deducted on the federal return (Schedule K-1-P, line 34)
3. The federal tax credit of \$6,000 for employing disabled veterans (Schedule K-1-P, line 47)

The Illinois tax credits for hiring qualified veterans¹² are calculated on Form IL-1065. For 2012, the partnership qualified for a total credit of \$4,500. This credit flows through to the LLC members and is claimed on their individual Forms IL-1040.

Darrel received the following Schedule K-1-P for 2012. Excerpts from his Form IL-1040 are shown next. Darrel did not have any other income or reportable items in 2012.

Observations for Example 6

1. Because Darrel is an Illinois resident, Column B (Illinois share) of the Schedule K-1-P is blank.
2. The information reported on page 1 of the Schedule K-1-P summarizes the amounts reported on the federal Schedule K-1. These amounts are already included in Darrel's AGI on Form 1040 and do not need to be entered separately on the Form IL-1040.
3. Page 2 of Schedule K-1-P reports the amounts that are required to be shown as adjustments on Darrel's Form IL-1040.
4. The additions of \$150 and \$5,000 for Illinois replacement tax and special (bonus) depreciation are shown on lines 33 and 34, respectively, of the Schedule K-1-P. These are totaled together, reported on line 2 of Schedule M, and then included on line 3 of Form IL-1040.
5. The subtraction of \$714 for Illinois special depreciation is reported on line 44 of Schedule K-1-P. The other subtraction of \$6,000 on line 47 is derived from the amount that the deductible wages on Form 1065 were reduced by the federal tax credit claimed for wages paid to disabled veterans.¹³ These amounts are totaled together, reported on Schedule M line 13, and included on line 7 of Form IL-1040.
6. The Illinois veterans job credit of \$4,500 is reported on line 38 of the Schedule 1299-C. The amount used in 2012 is limited to Darrel's 2012 income tax liability of \$755. The excess \$3,745 carries forward for five years.

ILLINOIS ESTATE TAX

In general, Illinois estate tax laws follow the federal estate tax laws. However, there are four significant areas in which they differ.

1. For people dying in 2013 or later, the **Illinois exemption is equal to \$4 million.**¹⁴ The **federal exemption is \$5.25 million** for 2013 and will be adjusted annually for inflation thereafter.
2. The maximum Illinois qualified terminable interest property (QTIP) election for passing assets to surviving spouses is \$1.25 million for 2013.¹⁵
3. Illinois does not have any provisions for portability of the deceased spousal unused exclusion (DSUE). Under federal law, an election can be made that allows the unused portion of a deceased person's exemption to pass to the surviving spouse.
4. Individuals who were partners in a civil union under Illinois law are given the same treatment as surviving spouses for Illinois estate tax purposes, regardless of the couple's status under federal law.

Note. This fourth difference applies to both same-sex couples and opposite-sex couples joined in Illinois civil unions. Some opposite-sex couples have chosen to enter into a civil union under Illinois law instead of a marriage in order to avoid federal obligations imposed by marriage.

QTIP ELECTION

An executor of an estate has an option to deduct the value of assets transferred to a qualified trust.¹⁸ In general, trusts established under this provision pay the surviving spouse the income earned by the transferred assets for the lifetime of the survivor. After the death of the survivor, the assets in the trust pass to the remainder beneficiaries. This type of trust is called a QTIP.

For Illinois estate tax purposes, a separate QTIP may be established that is independent of any QTIP election for federal estate tax purposes.¹⁹ At the executor's election, an additional deduction may be taken on the Illinois estate return for the value transferred to this trust. The maximum amount of the election for 2013 is \$1.25 million.²⁰ This maximum election is equal to the difference between the federal and Illinois exemption amounts and changes accordingly each year.

Note. Under both state and federal provisions, the QTIP assets previously deducted are added back into the **survivor's estate** at their current value upon the death of the survivor.

Example 7. At the time of his death in October 2013, Thurston, an Illinois resident, had an estate valued at \$6 million. His wife Eunice has her own assets, which are currently valued at \$5 million. Thurston had three children from a previous marriage who inherited the bulk of his estate. However, his will included a provision for his estate to transfer to a QTIP enough to reduce his estate tax liability to zero.

To accomplish this on the federal level, his executor transfers \$750,000 to a QTIP for the lifetime benefit of Eunice, with Thurston's children as the remainder beneficiaries. This reduces his **federal taxable estate** to zero as follows.

Value of estate at time of death	\$6,000,000
Transfer to QTIP	(750,000)
2013 federal estate exemption	<u>(5,250,000)</u>
Federal taxable estate	\$ 0

However, this is not sufficient to reduce the Illinois estate to zero, as shown below.

Value of estate at time of death	\$6,000,000
Transfer to QTIP	(750,000)
Illinois estate exemption	<u>(4,000,000)</u>
Illinois taxable estate	\$1,250,000

To reduce the Illinois estate to zero, the executor transfers \$1.25 million to another QTIP. The executor does not adjust the federal estate return for this transfer, but she does show the election on the Illinois return.

GIFTS

Illinois does not impose a gift tax. However, certain gifts are included in the federal estate and, therefore, in the Illinois estate. These gifts include the following transfers made within three years of the date of death.

1. Life insurance policies²¹
2. Retained life estates²²
3. Reversionary interests²³
4. Gifts involving the power to revoke²⁴

ILLINOIS ESTATE TAX REPORTING AND CALCULATION

Prior to preparing the Illinois Form 700, *State of Illinois Estate & Generation Skipping Transfer Tax Return*, the practitioner must prepare the federal Form 706, *United States Estate (and Generation-Skipping Transfer) Tax Return*. If the estate is not required to file Form 706, a pro-forma version (or substantially similar report) must still be completed to be filed with the Illinois Form 700.²⁵

The maximum marginal tax rate for assets in an Illinois estate is 16%. The estate exemption amount does not appear on Form 700. The exemption is applied via the formula that calculates the amount of tax due. For both federal and state purposes, Illinois estate taxes are deducted in determining the net taxable value of the estate. This creates a circular reference in the formula for calculating the tax due. To aid practitioners, the Illinois Attorney General's office provides a calculator at www.illinoisattorneygeneral.gov/publications/estatetax.html.

FILING AND PAYMENT INSTRUCTIONS

For decedents dying prior to 2013, see the Returns previously posted on this website covering the specific year of death at issue subject to taxation.

For persons dying in 2013, the Federal exemption for Federal estate tax purposes is \$5,250,000. However, the exemption equivalent for Illinois estate tax purposes is \$4,000,000. Therefore, tentative taxable estates with adjusted taxable gifts between \$4,000,000 and \$5,250,000 will owe an Illinois estate tax without any corresponding Federal estate tax liability. In such situations, the estate representative is to prepare and file the Illinois Estate Tax Return, Form 700, together with a Federal Form 706, Federal Estate Tax Return, or any other form containing the same information, even though the Federal return is not required to be filed with the Internal Revenue Service. The Federal Form 706 must include all schedules, appraisals, wills, trusts, attachments, etc. as the Federal Form 706 would have for a 2012 decedent with a tentative taxable estate plus adjusted taxable gifts over \$3,500,000. The Illinois estate tax will be determined by using the inter-related calculations from the 2013 Calculator available at www.illinoisattorneygeneral.gov. The computations are based upon using the amounts of the Illinois Tentative Taxable Estate (Line 3, Form 700) and the Illinois Tentative Taxable Estate plus Adjusted Taxable Gifts (Line 5, Form 700).

When the tentative taxable estate plus adjusted taxable gifts exceeds \$5,250,000 the Illinois Estate Tax Return, Form 700, is to be prepared and filed in the same manner for 2013 as for 2012, and must therefore include a copy of the Federal Form 706 with all attachments.

For both resident and non-resident decedents, the tax base will be calculated assuming all assets are located within Illinois. (Line 6, Schedule A or B, Form 700). The percentage of Illinois assets to total assets is then computed with the percentage applied to the tax base for apportionment purposes to determine the amount of Illinois estate tax due.

Illinois QTIP election (Qualified Terminable Interest Property):

For persons dying January 1, 2009 and after, the estate may make a QTIP election for Illinois purposes which is larger than the Federal QTIP election. The Illinois QTIP must be elected on the Illinois Return. The Illinois QTIP election will follow Federal statutes and rules for treatment of such elected property as passing to the surviving spouse and inclusion for Illinois purposes on any Illinois Estate Tax Return of the surviving spouse. The maximum Illinois QTIP election allowable for decedents dying in 2013 is \$1,250,000.

This return must be filed within nine (9) months of the date of death. For Cook, DuPage, Lake and McHenry Counties, file the original return with the Office of the Attorney General, Revenue Litigation Bureau, 100 West Randolph Street, 13th Floor, Chicago, Illinois 60601. For all other counties, file the original return with the Office of the Attorney General, Revenue Litigation Bureau, 500 South Second Street, Springfield, Illinois 62706. An additional copy of the return without attachments must also be filed with the State Treasurer.

PAYMENT OF ALL TAXES, INTEREST AND PENALTIES IS NOW PAYABLE TO THE ILLINOIS STATE TREASURER WITH THE "ILLINOIS STATE TREASURER ESTATE TAX PAYMENT FORM" AT THE ADDRESSES DESIGNATED THEREIN.

ALL PAYMENTS MUST BE MAILED TO OR DEPOSITED WITH THE STATE TREASURER IN ORDER TO BE CREDITED WITH TIMELY PAYMENT. Please send a copy of the State Treasurer's receipt to: Office of the Attorney General, Revenue Litigation Bureau, 100 West Randolph Street, 13th Floor, Chicago, Illinois 60601, or the Office of the Attorney General, Revenue Litigation Bureau, 500 South Second Street, Springfield, Illinois 62706, as appropriate.

MULTISTATE BUSINESS AND ILLINOIS NEXUS RULES²⁶

INTRODUCTION

Illinois imposes income taxes **and** replacement taxes on corporations, partnerships, and trusts for the privilege of earning or receiving income in the state. Individuals are not subject to replacement taxes, but they may be subject to income taxes if they are residents of the state or earn income in the state.

The link between a business and a state is often called **nexus**. There are three different bodies of law used to determine whether a business has sufficient activity in the state to create a taxable nexus.

1. Federal statutes regulating interstate commerce
2. U.S. and state constitutional jurisprudence
3. Illinois tax statutes

Federal law prohibits states and their political subdivisions from imposing income taxes on nonresident businesses if the only activities of the business are solicitation of orders of **tangible personal property** in which the orders are:

1. Sent outside the state for approval, **and**
2. Filled for delivery from a point outside the state.

ACTIVITIES CREATING NEXUS

When a business's activity exceeds "mere" solicitation, the business is subject to income and replacement taxes, if applicable. The determination of the extent of activity is based on the facts and circumstances in each case.

The federal law only covers sales of tangible personal property. Solicitation to sell **services and other intangibles** is **not** covered under federal law. Intangibles include franchises, patents, copyrights, trademarks, and service marks.

Any of the following activities conducted within the state causes a nonresident taxpayer to become subject to taxation by Illinois.

1. Making repairs or providing maintenance
2. Collecting current or delinquent accounts
3. Investigating creditworthiness
4. Installation or supervision of installation after shipment or delivery
5. Conducting training courses, seminars, or lectures for anyone other than the salespersons
6. Providing any kind of technical assistance or services except those for the purpose of soliciting orders
7. Investigation, handling, or otherwise assisting in resolving customer complaints, other than mediating direct customer complaints by the salesperson
8. Approving or accepting orders
9. Repossessing property
10. Securing deposits on sales
11. Picking up or replacing damaged or returned property

²⁶ 86 Ill. Administrative Code 100.9720.

2013 Workbook

12. Hiring, training, or supervising personnel except salespersons
13. Maintaining a sample or display room for more than 14 days at any one location within the state during the tax year
14. Carrying samples for sale, exchange, or distribution (not merely for demonstration)
15. Owning, leasing, or maintaining facilities in the state
16. Consigning tangible personal property to any person for sale in the state
17. Maintaining any office in the state except an “in-home” office (does not apply to independent contractors who represent multiple sellers)
18. Representing to the public that the business has a location in the state
19. Conducting any activity that is not de minimis or not purely ancillary to the sale of personal property

The determination of whether a nonresident business has conducted business within the state **is made on an annual basis** for each tax year. Simply registering to do business in the state does not mean that the taxpayer has created a taxable nexus.

If sufficient, activities of flow-through entities create nexus for their owners. For example, a nonresident of the state who is a shareholder of an Illinois S corporation is required to file an Illinois return to report their share of the corporation’s net income attributable to Illinois.

ALLOCATION OF INCOME

Each state has its own method of determining how much of a business’s net income is subject to taxes in that state. The state of Illinois bases the allocation solely on the proportion of sales occurring in Illinois.²⁷

Not all income is included in sales for purposes of making the allocation. Gross receipts from the following activities **are** included.²⁸

1. Sales of inventory in the ordinary course of business, including sales taxes paid by the buyers
2. Services and sales performed under cost plus fixed fee contracts, including all administrative charges added into the contract
3. Sales of services in the ordinary course of business
4. Rentals, leases, or licensing the use of property in the ordinary course of the taxpayer’s business
5. Sales, assignments, or licensing of intangible personal property in the ordinary course of the taxpayer’s business
6. Gross receipts from sales of equipment **used** in the taxpayer’s business
7. Items or activities excluded from federal income but added back into the computation of Illinois base income, unless the item is subsequently subtracted in the same computation

²⁷ 35 ILCS 5/304(h)(3).

²⁸ 86 Ill. Administrative Code 100.3370.

2013 Workbook

The following items are **not included** in sales for apportioning purposes.

1. Dividends
2. IRC §78 and Subpart F income related to certain foreign corporations
3. Gross receipts excluded from or deducted in the computation of federal taxable income or federal AGI that are not added back in the computation of Illinois base income
4. Gross receipts that are subtracted from federal taxable income or federal AGI in the computation of Illinois base income (such as interest on federal obligations)

Example 9. Memphis Multistate Services is a consulting business located in Memphis, Missouri. The business is taxed as a C corporation. In 2012, the company did a special project for the city of Quincy, Illinois, as well as consulting for various Missouri municipalities. The following information was used to complete the company's tax returns.

	Illinois	Missouri	Total
Services income	\$100,000	\$200,000	\$300,000
Capital gain from disposition of equipment	0	20,000	20,000
Interest on U.S. Treasury bonds	0	2,000	2,000
Total income	\$100,000	\$222,000	\$322,000

Total sales for apportionment purposes:

	Illinois	Total
Services income	\$100,000	\$300,000
Capital gain from disposition of equipment	0	20,000
Interest on U.S. Treasury bonds (excluded)	0	0
Total income	\$100,000	\$320,000

NOL SUSPENSIONS FOR ILLINOIS C CORPORATIONS

Many practitioners were surprised when the state of Illinois suspended the use of an Illinois net loss deduction by C corporations for tax years ending on or after January 1, 2011, and prior to December 31, 2014. Probably due to substantial political pressure, the legislature subsequently revised this rule. The **new** law is that the deduction of net operating loss (NOL) carryovers is limited to \$100,000 for any tax year ending on or after December 31, 2012, and prior to December 31, 2014.²⁹

Example 10. Someday, Inc., is an Illinois C corporation that reports taxes on a calendar-year basis. In 2011, the company's reported net loss was \$150,000. Fortune smiled on the business in 2012, and its Illinois base income was \$200,000. Unfortunately, Someday, Inc., was only allowed to deduct \$100,000 of the \$150,000 NOL carryforward on its 2012 return. Its Schedule NLD is shown on the following page.

In general, NOL carryforwards are limited to 12 years following the year of the loss.³⁰ However, if the available NOL exceeds \$100,000, **the year that the excess was not deducted because of this limitation is not counted towards the 12-year period.**³¹

Example 11. Using the same facts as **Example 10**, the \$50,000 excess loss is carried forward until it can be used. Ordinarily, a loss arising in 2011 would expire after 2023. However, in this case, 2012 is not counted because the NOL deduction was limited by this special provision. Therefore, the \$50,000 may be carried forward until 2024 or until used, whichever comes first.

ILLINOIS INVESTMENT TAX CREDITS AND RECAPTURE³²

The state of Illinois offers several investment tax credits to businesses that place qualified property in service in the state during the tax year. There are four credits that are subject to recapture if the property becomes disqualified for the credit after the year it is claimed.

1. Enterprise zone
2. River edge redevelopment zone
3. High impact business
4. Replacement tax investment

Note. See the 2012 *Illinois Update* for more information about how to qualify for and claim these credits.

Illinois Schedule 4255, *Recapture of Investment Tax Credits*, is used to calculate and report the amount of credit that must be recaptured. A separate Schedule 4255 is required for each tax year in which the now disqualified property was placed in service, beginning with the earliest year.

CAUSES OF DISQUALIFICATION

Enterprise Zone or River Edge Redevelopment Zone Investment Credits

Property ceases to qualify for these credits if, within 48 months of placing it into service, the property is:

1. Disposed of,
2. Converted to personal use, **or**
3. Moved outside of a qualifying zone.

High Impact Business Investment Credit

The high impact business investment credit is claimed by qualified taxpayers who have entered into specific types of contracts with approved taxing districts. If the taxpayer relocates the qualifying facility in violation of the terms and length of the contract, the credit must be recaptured.

Replacement Tax Investment Credit

Property ceases to qualify for this credit if, within 48 months of placing it into service, the property is:

1. Disposed of;
2. Converted to personal use;
3. Moved outside of Illinois; **or**
4. No longer used by a taxpayer who is primarily engaged in manufacturing, retailing, coal mining, or fluorite mining.

Portions of the investment credits earned by flow-through entities automatically flow through to those partners and shareholders who are subject to replacement tax. The partners and shareholders are required to report any recapture on their respective returns. The taxpayer is required to provide the affected recipients with a copy of Schedule 4255.

2013 Workbook

Example 12. Goodnight Partners, LLC, is an Illinois company that sells bedding and accessories. It is taxed as a partnership on a calendar-year basis. Its owners are two Illinois residents and the company has two employees. Only the LLC is subject to replacement taxes.

In 2011, the LLC purchased a new delivery van that qualified for the replacement tax investment credit. The cost of the van is \$22,000. The rate of the replacement tax investment credit is 0.5% (which is also the rate used for any recapture). On the 2011 tax return, the company reported \$110 of replacement tax credits. However, its replacement tax was only \$80, so it was only able to use \$80 of the credit. The remaining \$30 carried forward to 2012. The Form IL-477 that it filed with its 2011 Form IL-1065 follows.

In August 2012, the LLC decided to subcontract the delivery service to another company, and it sold the van. Because it disposed of the asset before 48 months had elapsed, the credit must be recaptured. However, only the amount of credit used is recaptured. The LLC's 2012 Schedule 4255 follows the Form IL-477. The \$80 shown on line 16 flows to line 55 of Form IL-1065 (not shown).

4	Write the distributive share of replacement tax investment credit from partnerships and S corporations.							4	0.00
5	Add Line 2, Column H, and Lines 3 and 4. This is your total replacement tax investment credit from this year.							5	110.00
6	Multiply Line 5 by the percentage of total ownership in the partnership or S corporation attributable to partners or shareholders subject to replacement tax. See instructions.							6	0.00
7	Subtract Line 6 from Line 5.							7	110.00
8	Write the amount of your credit carryforward from a previous year.							8	_____
9	Add Lines 7 and 8. This is your total investment credit available to use this year.							9	110.00
10	Write your total replacement tax. See Instructions.							10	80.00
11	Write the lesser of Line 9 or Line 10 here and on your return. See instructions. This is your replacement tax investment credit to use this year.							11	80.00
12	Subtract Line 11 from Line 9. If the amount is negative, write zero. This is the amount of excess credit available to be carried forward five years.							12	30.00

Step 2: Figure your base employment calculation worksheet

Note: If your business is new to Illinois, check this box.
You automatically qualify for the additional credit. **Do not** complete Lines 13 through 19. See instructions for Step 1, Line 3.

13 Write as your "base employment" the number of covered workers from Line 1 of Illinois Department of Employment Security Form UI-3/40, Employer's Contribution and Wage Report. Make entries only for those months that you were taxed by Illinois.

ILLINOIS INCOME TAX ISSUES FOR SAME-SEX COUPLES

HISTORY AND CURRENT EVENTS

On June 1, 2011, Illinois first allowed same-sex couples to have their relationships legally recognized as “civil unions.” The civil-union status was intended to grant the couple the same rights and responsibilities under Illinois law as those granted to married different-sex couples.³³ As of June 2013, an estimated 5,300 couples in Illinois have joined in civil unions.³⁴

On February 14, 2013, the state senate passed the Religious Freedom and Marriage Fairness Act (SB10).³⁵ The bill included a provision to allow couples to convert their civil unions to marriages by applying to a county clerk within one year of the passage of the law. The conversion would be retroactive to the date of the original union. The Illinois House did not vote on the bill prior to adjourning for the summer; however, it is expected to be reintroduced in the fall session.³⁶

The U.S. Supreme Court also addressed issues of concern to same-sex couples in 2013. In *U.S. v. Windsor*,³⁷ the court considered the constitutionality of section 3 of the federal Defense of Marriage Act (DOMA), which prohibited the federal government from recognizing same-sex marriages regardless of the legal recognition conferred by the states. On June 26, 2013, the Supreme Court issued its ruling and declared that section 3 of DOMA violated the equal protection clause of the Fifth Amendment of the U.S. Constitution.

Note. For more information on *U.S. v. Windsor*, see the 2013 *University of Illinois Federal Tax Workbook*, Volume B, Chapter 5: Rulings and Cases.

Note. In light of the *Windsor* decision, the legal status of couples in Illinois civil unions is not clear as of the date this publication went to press.

On August 29, 2013, the IRS released Rev. Rul. 2013-17, which states that same-sex couples, **legally married in jurisdictions that recognize their marriages**, will be treated as married for federal tax purposes. This ruling applies regardless of whether the couple lives in a jurisdiction that recognizes same-sex marriage or a jurisdiction that does not recognize same-sex marriage.

Rev. Rul. 2013-17 does not apply to registered domestic partnerships, civil unions, or other formal relationships recognized under state law. Accordingly, if SB10 or a similar bill does **not** become law, couples who enter into a civil union in Illinois will not be able to file federal tax returns using the MFJ or MFS status. However, if a same-sex couple living in Illinois was legally married in any state, the District of Columbia, a U.S. territory, or a foreign country, they **must** file their 2013 federal income tax return using either the MFJ or MFS status.

If SB10 is enacted into law as currently written, couples who choose to convert their civil unions to marriages will be considered married under federal law as of the date of the solemnization of their civil union. These couples should consider filing amended returns to claim any refunds due to them as a result of the change in their marital status.

2013 Workbook

Rev. Rul. 2013-17 states that individuals who were in same-sex marriages may, but are not required to, file original or amended returns using an MFJ or MFS status for one or more prior tax years still open under the statute of limitations. The federal statute of limitations for claiming a refund is three years from the date the return was filed or two years from the date the tax was paid, whichever is later.³⁸ When a change involves filing an amended **federal** return, the Illinois statute of limitations for claiming a refund is **two years plus 120 days**³⁹ **after the federal change has been accepted by the IRS.**

Note. The taxpayer can check the status of their Form 1040X by using the “Where’s My Amended Return?” tool at www.irs.gov/Filing/Individuals/Amended>Returns-%28Form-1040-X%29/Wheres-My-Amended-Return-1 or by calling 866-464-2050 three weeks after the amended return is filed.⁴⁰

Note. For more information about Rev. Rul. 2013-17, see the 2013 *University of Illinois Federal Tax Workbook*, Volume B, Chapter 5: Rulings and Cases.

Example 13. Theresa and Jennifer are Illinois residents. In 2005, they declared themselves a couple in a commitment ceremony performed in Maryland. Because Maryland did not recognize same-sex marriages at that time, the Maryland ceremony was not legally binding.

From June 17, 2008, to November 4, 2008, the state of California allowed localities to issue marriage licenses to same-sex couples. Theresa and Jennifer obtained a California marriage license and married each other in September 2008. In 2011, because of the prior ceremony performed in California, Illinois legally recognized their status as being in a **civil union**.

Theresa and Jennifer have always filed separate federal tax returns using the single filing status. However, beginning in 2011, they followed the guidance from the Illinois Department of Revenue and filed their Illinois tax returns as a civil union couple filing separately. Because Jennifer is self-employed and hates paperwork, she always files for an extension. Theresa also hates paperwork and always files at the last possible moment.

Upon hearing of the *Windsor* decision, the couple consults with their tax advisor, Michael. He tells them that under the terms of Rev. Rul. 2013-17, the IRS will treat Theresa and Jennifer as married for all federal tax purposes, including income taxes. This is true because Theresa and Jennifer were married in California, even though Illinois currently considers their status as being in a civil union for Illinois tax purposes.

Michael determines that the federal statute of limitations for amending Jennifer’s 2009 tax return will expire on October 15, 2013. He compares the tax returns Jennifer and Theresa filed to pro-forma MFJ returns. He determines that because Theresa’s income is significantly higher than Jennifer’s, their tax liability would have been lower if they could have filed using the MFJ status. He finds the same is true for the 2010, 2011, and 2012 returns.

Michael prepares an amended federal return for the couple for 2009. He does not prepare an Illinois amended return at this time because they have two years plus 120 days to file for the Illinois refund after the IRS accepts the change.

Page 1 of the Form 1040X that Michael prepares follows. He uses Jennifer’s original 2009 return as the “original amount” in column A.

Theresa’s information is entered in column B on lines 1 through 5. **The joint tax liability is shown on line 6 of column C.** Their joint liability is lower than the total of their original taxes because, as a single taxpayer, Theresa’s income was in higher brackets than it is using the MFJ brackets.

Audit Reconsiderations **800-829-1040**

This is a procedure where the result of a completed examination may be reconsidered. The taxpayer must establish good reasons why the case should be reopened, such as non-receipt of audit letter or additional evidence not previously available.

Banks, Post Offices, and Libraries **800-829-2765**

Post offices and libraries provide an alternative location for taxpayers to obtain tax forms and publications. Only banks that also participate in the e-file program are recruited for this program.

Centralized Authorization File **Fax: 855-214-7519**

Claims **800-829-1040**

A claim is an amended tax return reflecting a lower net tax liability and a refund. The amended return generally may be filed within three years of the due date or two years from when the tax was paid, whichever is later. Claims may either be accepted as filed or examined.

Taxpayer Advocate Service National Hotline 877-777-4778

The Taxpayer Advocate Service is an IRS program that provides an independent system to assure that tax problems, which have not been resolved through normal channels, are promptly and fairly handled. Taxpayers having an ongoing issue with the IRS that has not been resolved through normal processes, or taxpayers who have suffered or are about to suffer a significant hardship as a result of the application of the tax laws can contact the Taxpayer Advocate national hotline.

Taxpayer Advocate for Illinois

Springfield 217-862-6382

Chicago 312-292-3800

Each state has a Local Taxpayer Advocate. The local advocate is not a substitute for established IRS procedures or the formal Appeals process. The advocate cannot reverse legal or technical tax determinations. The local advocate is available to assist taxpayers meeting advocate criteria, serving as liaison with the practitioner community and congressional staff for their constituents and solicits feedback on recurring problems with the IRS systems and procedures.
